Summary

A junior application developer with shown proficiency in web development and Java. successfully participated in several banking projects that required documentation and reverse engineering of intricate Java codebases. I have a bachelor's degree in computer science from Far Eastern University East Asia College, and I worked as a data analyst at Sykes Asia Inc during my internship. and driven software engineer with experience in object-oriented programming (C++, Python, and Java). I hope to work as a frontend developer, data analyst, web developer, or application system engineer where I can use my analytical and problem-solving skills in a cooperative team setting.

Education

BS in Computer Science   July 2015 – Jan 2021

With Specialization in Software Engineering

FEU Institute of Technology P. Paredes St., Sampaloc, Manila

Work Experience

Application Systems Engineer   Mar 2022 – Apr 2025

WESERV SYSTEMS INTERNATIONAL, INC.

Responsibilities:

- Coding and debugging software applications
- Implementing updates and changes in software
- Collaborated with QA teams to write unit and integration tests, ensuring clean, efficient, and maintainable code.
- Monitoring each member's task and always keep on track.
- Led a knowledge transfer (KT) session after being reassigned to a banking project, utilizing reverse engineering expertise to train the team on efficient workflows and documentation standards. Collaboratively analyzed and reverse engineered thousands of lines of Java code, resulting in detailed documentation that enhanced the client's understanding of the system flow.
- Worked on a two-years banking project where we reverse engineered a complex legacy system, producing comprehensive technical documentation and UML diagrams that improved client understanding by 40%. Collaborated with cross-functional teams to translate program logic into intuitive, user-friendly software solutions.
- Completed a six-month bootcamp training program focused on programming, software testing, and technical documentation. Gained hands-on experience through a project immersion, applying learned skills to real-world scenarios. Demonstrated strong proficiency in creating detailed technical documentation and comprehensive software system reports.

Startup Academy Intern   Aug 2020 – Dec 2020

FEU Innovation Center, P. Paredes St. Sampaloc,

Sykes Asia Inc. Intern   Dec 2019 – Apr 2020

25 Gilmore Ave, Corner Aurora Blvd, New Manila, Quezon

Certifications

Microsoft Certified: Security Operations Analyst Associate

EXAM SC-200

Microsoft Certified: Information Protection and Compliance Administrator Associate

EXAM SC-400
